CAPABILITY STATEMENT

Persson Inc. dba California Paving Company is a full-service general engineering contractor specializing in civil construction projects throughout California. Established in 1992 and headquartered in Oakhurst, California, with over three decades of experience delivering federal, state, and utility projects. California Paving's core competency is executing civil construction in rural and remote environments, where challenging terrain and limited access require advanced coordination, planning, and technical expertise. Throughout 33 years the company has built a proven track record delivering civil construction projects ranging from **\$10K to \$9M**, completed on time, within budget, and to client satisfaction.

SELF-PERFORMED CORE COMPETENCIES

Roadway & Heavy Civil Construction

- Highway, roadway, and bridge construction
- Grading and earthwork operations
- Embankment stabilization and slope repair
- Rural and remote infrastructure construction

Asphalt Resurfacing & Repair

- Roadway reconstruction
- Pavement resurfacing, rehabilitation, and overlays
- Pavement maintenance, crack filling and sealing
- Asphalt patching and repair

Storm & Drainage

- Culvert installation, repair, and maintenance
- Roadway drainage and ditch repair
- Washout and storm damage repair
- Excavation, backfill, and site restoration
